

DocBridge[®] Mill 2010.08

Data Sheet

Document Processing - of Any Type and in Any Way

DocBridge Mill reads, analyzes, modifies and converts documents and data streams. The input files to be processed can be modified, separated, distributed, classified, indexed and converted into all popular formats using profiles. Documents can therefore be displayed, printed, archived and processed in all ways and on almost every platform. Flexible scripting functions allow to process complex output management processes in a flexible way.

- › Processing of documents and data streams submitted in many input formats
- › Analysis, modification and conversion of documents and data streams
- › Rendition of documents in many output formats
- › API available for integration in custom applications

Compatibility

- Application profiles including application scripts for DocBridge Mill 2009.11 and later can be applied to this release
- MFF profiles for DocBridge Mill 2009.11 and later can be applied to this release

Supported Formats

Input Formats

- AFP, PDF, PCL5 & 6, PostScript, PPML, VIPP, VPS, Linemode, LCDS/DJDE, Metacode/DJDE, Prescribe, XPS, XML, HTML/CSS, XSL-FO, SAP ALF+OTF, SVG, Raster Formats, PC Documents

Output Formats

- AFP, PDF, PCL5 & 6, PostScript, VPS, Linemode, Metacode/DJDE, IPDS, IJPDS, XPS, XML, HTML, SVG, Raster Formats, PC Printer

The full list of supported formats is published in the **Compart Matrix** on the **Compart website** (www.compart.com)

Standard Platforms

The following platforms are supported as a standard

- **Operating System:** MS Windows XP 32-Bit, MS Windows 7 32/64-Bit, MS Windows Server 2003 32-Bit, MS Windows Server 2008 32/64-Bit, Linux (Kernel 2.6, Intel) 32/64-Bit, AIX 5.3 (PowerPC) 32/64-Bit, Solaris 8 (SPARC) 32-Bit, Solaris 10 (Intel) 32-Bit, HP-UX 11.23 (Itanium) 32-Bit

Platforms upon Request

The product is designed to run on the following platforms as well, but a dedicated effort for installation, testing and performance tuning is usually required. Configurations including any of the platforms listed below are supported upon request

- **Operating System:** MacOS X 10.5, Linux (Kernel 2.6, PowerPC) 32/64-Bit, z/Linux (Kernel 2.6, Series z) 32/64-Bit, z/OS USS 1.9 (Series z) 32-Bit, HP-UX 11.11 (PA-RISC) 32-Bit

Interfaces to Other Systems

- Read from and write to any file system supported by the operating system
- Command line of the operating system

Language Support

This program does not have a graphical user interface. The command line interface and all messages are available in english only.

- **Documentation:** German, English

General Provisions

- The feature set available in a given installation may vary depending on the license agreement
- Before upgrading platforms or application software for production, prior integration testing in a non-production environment is recommended
